

Community Rules

Last updated: June 2026

These Community Rules describe the content and conduct that are allowed and not allowed on this Forum. They form part of our Terms of Service and apply to everything you do here, including your posts, replies, messages, reactions, usernames, profile fields, and any other Content you submit.

These Rules sit on top of the Roblox Community Standards, which apply at all times. Where these Rules and the Roblox rules differ, the Roblox rules take precedence. We ask that you follow not only the letter of these Rules, but their spirit as well. How we enforce them, and how you can appeal, is set out in the Moderation and Appeals policy.

Rule 1. Treat people with respect

This is a community, not a place to attack people. Everyone has the right to use the Forum free of harassment, bullying, and threats. Do not target, threaten, intimidate, stalk, or repeatedly harass any user, and do not organise, encourage, or take part in coordinated harassment of a person or group.

Rule 2. No hateful conduct

Do not post content that attacks, dehumanises, or promotes hatred or violence against people based on a protected characteristic, including race, ethnicity, national origin, religion, gender, gender identity, sexual orientation, disability, age, or serious illness. Hateful slurs and hateful imagery are not allowed.

Rule 3. Keep content appropriate for a 13+ audience

The Forum is intended for users who are 13 or older and runs on Roblox, where these limits are firm. Do not post sexual, sexually suggestive, or other adult content. We have zero tolerance for any sexual, abusive, or suggestive content involving a minor, and for any predatory or inappropriate behaviour toward a minor. Such content is removed immediately, the account is banned, and the matter is reported to Roblox and, where appropriate, to the relevant authorities.

Rule 4. No violent, dangerous, or harmful content

Do not post threats of violence, or content that glorifies, incites, or provides instructions for violence or for causing harm to people or animals. Do not post content that promotes or encourages self-harm, suicide, eating disorders, or other dangerous activities.

Rule 5. Keep it legal

Do not post content that is unlawful, and do not use the Forum to solicit, arrange, or facilitate illegal or prohibited transactions or the trade of regulated or prohibited goods. Do not commit fraud or run scams.

Rule 6. Respect privacy

Do not post, or threaten to post, personal, identifying, or confidential information about yourself or anyone else, including full names, addresses, phone numbers, email addresses, other social accounts, school or workplace details, or photographs of identifiable people. Never share, or threaten to share, intimate or sexually explicit media of any person without their consent. Keep the community on-platform.

Rule 7. Be authentic; no impersonation or manipulation

You do not have to use your real name, but do not deceptively impersonate any person, moderator, staff member, Roblox, or organisation, and do not misrepresent your affiliation with anyone. Do not manipulate the Forum through vote or ranking manipulation, multiple or coordinated accounts, or other inauthentic behaviour.

Rule 8. Post in the right place and label content properly

Use the correct categories and topics, write clear and accurate titles, and label content appropriately so that people have predictable experiences. Do not derail other people's discussions, post low-effort or duplicate content, or revive very old topics without a good reason.

Rule 9. No spam or disruptive behaviour

Do not flood the Forum with repetitive posts, unsolicited advertising, chain messages, or link spam, and do not engage in content manipulation or other behaviour that interferes with normal use of the Forum.

Rule 10. Do not break or abuse the Forum

Do not exploit bugs, hack, overload, or probe the security of the Forum, and do not use bots, automation, or scraping without our permission. Do not attempt to bypass any limit or any moderation action, including by using additional or alternate accounts to evade a mute or ban.

Rule 11. Respect intellectual property

Only post content that you have the right to post. Do not upload or share text, art, or other material that belongs to someone else unless you are allowed to. See the Content and Copyright policy.

Rule 12. Follow the rules of the spaces you are in, and staff guidance

Follow any additional rules that apply to specific areas of the Forum, and do not interfere with parts of the Forum that you are not part of. Follow reasonable instructions from moderators and staff. If you believe a decision was wrong, use the appeals process rather than arguing or retaliating.

Reporting

If you see content or conduct that breaks these Rules or that makes you feel unsafe, please report it. The Safety and Reporting policy explains how to report, block, and get help. Do not misuse the reporting tools by submitting deliberately false reports.

Enforcement

We enforce these Rules using reasonable judgement and in proportion to the seriousness of what happened, taking context and history into account. Depending on the situation, the result may be removal or editing of content, a warning, a mute, a temporary restriction, or a permanent ban, and serious

violations may result in an immediate ban and a referral to Roblox. The full approach is set out in the Moderation and Appeals policy. Roblox may also take its own action under the Roblox Terms.
